Chapter 2: Land, Soil, Water, Natural Vegetation and Wildlife Resources

Class  
**8**

Powered by

## CHAPTER – 2

### Land, Soil, Water, Natural Vegetation and Wildlife Resources

Let's do

#### Question 1

Observe the land, type of soil and water availability in the region you live. Discuss in your class, how it has influenced the lifestyle of people there.

#### Answer:

The land, type of soil and water availability in the region influence the life style of people living there. They affect the economic activities of the people. In the region that we live, there are not enough open lands and soil is also not fertile. The water is available. Because of this, many people in my area work in service sector and very few people do agriculture or dairy farming.

#### Exercise

#### Question 1 A:

Which are the two main climatic factors responsible for soil formations?

#### Answer:

The two main climatic factors responsible for soil formation are:

- a. Rainfall.
- b. Temperature.

Temperature and rainfall affect the rate of weathering of rocks and humus.

### **Question 1 B:**

Write any two reasons for land degradation today.

#### **Answer:**

Land degradation is the result of excess agricultural and economic activities. Reasons for land degradation are:

- a. Deforestation:** Deforestation leaves the land more vulnerable to climatic conditions. It loosens the top soil which leads to increased land erosion.
- b. Landslides:** Landslides are both cause and effect of land degradation. Landslides result in erosion of top soil which leaves the lower levels of soil vulnerable.

c. Flood (Any two): Floods render huge patch of land waste. When floodwater enter into open areas or agricultural lands, it degrades the quality of soil.

### Question 1 C:

Why is land considered to be an important resource?

#### Answer:

Land is considered to be an important resource because:

- a. It supports all kinds of living things including humans. It enables agriculture and plantations which gives humans and other species their food.
- b. It is used for various needs of human beings, i.e., for constructing buildings, roads, railway lines etc.

### Question 1 D:

Name any two steps that government has taken to conserve plants and animals.

#### Answer:

In the face of various climatic changes, plants and animals have been most affected. Our government has taken various measures to conserve plants and animals.

- a. Our government has constructed **national parks, wildlife sanctuaries, biosphere reserves** to protect our natural vegetation and wildlife.
- b. Awareness programs like social forestry and **Vanamahotsava** are encouraged at the regional and

community level to educate people about how putting plants and animals into dangers disturbs the whole ecosystem and would in turn also impact humans.

**Question 1 E:**

Suggest three ways to conserve water.

**Answer:**

Water degradation is one of the most urgent environmental problems that we are facing today. The ways to conserve water are:

- i. The **impurities of water should be treated** before releasing them into water bodies.
- ii. **Rainwater harvesting** should be done to save surface runoff.
- iii. **Wastage** of water should be checked at home also.

Wastewater of kitchen and washing can be used for gardens and toilets. Bucket bath should be done instead of using showers or bathtubs.

**Question 2 A: Tick the correct answer**

Which one of the following is NOT a factor of soil formation?

- a. Time
- b. Soil texture
- c. Organic matter

**Answer:**

- b. Soil texture

### Question 2 B:

Which one of the following methods is most appropriate to check soil erosion on steep slopes?

- a. Shelter belts
- b. Mulching
- c. Terrace cultivation

**Answer:**

- a. Terrace cultivation

### Question 2 C:

Which one of the following is NOT in favour of the conservation of nature?

- a. Switch off the bulb when not in use
- b. Close the tap immediately after using
- c. Dispose poly packs after shopping

**Answer:**

- c. Dispose poly packs after shopping

### Question 3:

Match the following:

- |                |   |
|----------------|---|
| a. Land use    | a. prevent soil erosion   |
| b. Humus       | b. narrow zone of contact between lithosphere, hydrosphere and atmosphere |
| c. Rock dams   | c. productive use of land   |
| d. Arable land | d. organic matter deposited on top soil                                   |

contour ploughing.

e. contour ploughing

**Answer:**

i. (c) ii. (d) iii (a) iv. (b)

i. Land use refers to productive and suitable use of land in a way that the health of the soil and land remains intact.

ii. Humus is formed by decomposition of leaves and other weathered plant parts by microorganisms found in the soil. Humus is deposited on the topmost layer of soil.

iii. Rock dams are built across a drainage way to collect the eroded sediments. Rock dams are temporary structures.

iv. arable land- the which is good for ploughing and have a good amount of minerals and carbonic compound.

**Question 4:**

State whether the given statement is true or false. If true write the reasons.

i. Ganga-Brahmaputra plain of India is an overpopulated region.

ii. Water availability per person in India's declining.

iii. Rows of trees planted in the coastal areas to check the wind movement is called intercropping.

iv. Human interference and changes of climate can maintain the ecosystem.

### Answer:

- i. True. It is because here the land very fertile and suitable for cultivation. People prefer to live in fertile areas since it offers lucrative economic benefits.
- ii. True. Population of India is on the rise. The available water resources are drying up because of increase in temperature due to global warming. The available water resources are becoming polluted by human activities. All these reasons together result in decline of water fit for human consumption.
- iii. False, it is called shelter-belt. Intercropping in growing a crop amongst different kinds of plants.
- iv. False, it will deteriorate the ecosystem. Human activities and industrialization result in over use of natural resources like land and water and release in ecosystem harmful gases which disturb the natural balance of ecosystem.

### Question 5: Activity

Discuss some more reasons which are responsible for changes of land use pattern. Has your place undergone any change in the land use pattern in recent years?

Find out your parents and elderly people. You can conduct an interview by asking the following questions.

Place	When your grandparent'	When your	Why do you think	Are common area and
-------	------------------------	-----------	------------------	---------------------

	s were in their 30s	parent s were in their 30s	this is happenin g	opens space disappearing ?
Rural Number of cattle and poultry owned				
Number of Trees and ponds in the village				
Main occupation of the head of the family				
Urban Number of cars owned				
Number of rooms in the house				
Number of metaled roads				
Number of flyovers in the city				

Number of parks and playgrounds				
---------------------------------	--	--	--	--

Based on the table you have just completed, draw a picture of land use patterns that you foresee in your neighbourhood after 20 years. Why do you think that land use patterns change over the years?

**Answer:**

There is a great change in the land-use pattern. The reasons are as under:

Place	When your grandparent's were in their 30s	When your parents were in their 30s	Why do you think this is happening	Are common area and opens space disappearing ?
Rural Number of cattle and poultry owned	Many people owned cattle and poultry as it was an important source of livelihood.	People started moving to cities and cattle rearing and poultry farming was not an attractive	This is happening because people are moving to urban areas for better employment opportunities	Yes, Urban areas do not have enough open space because of which cattle rearing is difficult.

		means of livelihood.		
Number of Trees and ponds in the village	Villages had lot of trees and at least 2 fresh water ponds.	Trees were cut to make more houses because of population increase. Pond water was polluted.	Population increase and industrialization are main causes	Villages do not have as much big open field as they had earlier.
Main occupation of the head of the family	Main occupation was agricultural farming or dairy farming.	As families started moving to urban areas, people began working in service sector or in industries.	Agriculture was no longer a profitable source of livelihood.	With the coming up of more concrete structures, agricultural land is depleting.
Urban Number of cars owned	Very few people owned cars	The number of car owners began increasing	There was a rise in income and standard of living because of	Huge building came up at the places where open

			economic growth.	grounds or common areas existed.
Number of rooms in the house	The number of rooms were less as people shared spaces	The numbers of rooms began increasing as every members wanted their personal space in the house	With the change in civilization, individualism increased and people became more aloof from their near one.	In order to make more rooms, open spaces in the houses were used.
Number of metalled roads	Metalled roads were rare. 'Kaccha' roads were more common	In order to facilitate economic activities, metalled roads were constructed	This is happening because good quality roads have become important to sustain industries.	
Number of flyovers in the city	There were one or two flyovers in the city because traffic was less	Flyovers started increasing because there was a rise in traffic congestion.	More and more people are owning vehicles	Flyovers are being made on open spaces

Number of parks and playgrounds	There were many parks and playgrounds	Parks and playgrounds were less in number as building came up in those areas	The space occupied by parks were used in build house, industries etc. to fulfill needs of increasing population	The open spaces were used to build houses.
---------------------------------	---------------------------------------	--	---	--

# JOIN OUR WHATSAPP GROUPS

FOR FREE EDUCATIONAL  
RESOURCES

---

## JOIN SCHOOL OF EDUCATORS WHATSAPP GROUPS FOR FREE EDUCATIONAL RESOURCES

We are thrilled to introduce the School of Educators WhatsApp Group, a platform designed exclusively for educators to enhance your teaching & Learning experience and learning outcomes. Here are some of the key benefits you can expect from joining our group:

### BENEFITS OF SOE WHATSAPP GROUPS

---

- **Abundance of Content:** Members gain access to an extensive repository of educational materials tailored to their class level. This includes various formats such as PDFs, Word files, PowerPoint presentations, lesson plans, worksheets, practical tips, viva questions, reference books, smart content, curriculum details, syllabus, marking schemes, exam patterns, and blueprints. This rich assortment of resources enhances teaching and learning experiences.
- **Immediate Doubt Resolution:** The group facilitates quick clarification of doubts. Members can seek assistance by sending messages, and experts promptly respond to queries. This real-time interaction fosters a supportive learning environment where educators and students can exchange knowledge and address concerns effectively.
- **Access to Previous Years' Question Papers and Topper Answers:** The group provides access to previous years' question papers (PYQ) and exemplary answer scripts of toppers. This resource is invaluable for exam preparation, allowing individuals to familiarize themselves with the exam format, gain insights into scoring techniques, and enhance their performance in assessments.

- **Free and Unlimited Resources:** Members enjoy the benefit of accessing an array of educational resources without any cost restrictions. Whether its study materials, teaching aids, or assessment tools, the group offers an abundance of resources tailored to individual needs. This accessibility ensures that educators and students have ample support in their academic endeavors without financial constraints.
- **Instant Access to Educational Content:** SOE WhatsApp groups are a platform where teachers can access a wide range of educational content instantly. This includes study materials, notes, sample papers, reference materials, and relevant links shared by group members and moderators.
- **Timely Updates and Reminders:** SOE WhatsApp groups serve as a source of timely updates and reminders about important dates, exam schedules, syllabus changes, and academic events. Teachers can stay informed and well-prepared for upcoming assessments and activities.
- **Interactive Learning Environment:** Teachers can engage in discussions, ask questions, and seek clarifications within the group, creating an interactive learning environment. This fosters collaboration, peer learning, and knowledge sharing among group members, enhancing understanding and retention of concepts.
- **Access to Expert Guidance:** SOE WhatsApp groups are moderated by subject matter experts, teachers, or experienced educators can benefit from their guidance, expertise, and insights on various academic topics, exam strategies, and study techniques.

Join the School of Educators WhatsApp Group today and unlock a world of resources, support, and collaboration to take your teaching to new heights. To join, simply click on the group links provided below or send a message to +91-95208-77777 expressing your interest.

**Together, let's empower ourselves & Our Students and  
inspire the next generation of learners.**

**Best Regards,  
Team  
School of Educators**

## Groups Rules & Regulations:

**To maximize the benefits of these WhatsApp groups, follow these guidelines:**

1. Share your valuable resources with the group.
2. Help your fellow educators by answering their queries.
3. Watch and engage with shared videos in the group.
4. Distribute WhatsApp group resources among your students.
5. Encourage your colleagues to join these groups.

### **Additional notes:**

1. Avoid posting messages between 9 PM and 7 AM.
2. After sharing resources with students, consider deleting outdated data if necessary.
3. It's a NO Nuisance groups, single nuisance and you will be removed.
  - No introductions.
  - No greetings or wish messages.
  - No personal chats or messages.
  - No spam. Or voice calls
  - Share and seek learning resources only.

**Please only share and request learning resources. For assistance, contact the helpline via WhatsApp: +91-95208-77777.**
